Chichen Itza the most impressive of all the Mayan ruins. Find out for yourself why the Mayan culture was the most advanced in the world. "El Castillo" pyramid has 91 steps x 4 sides and the one on top for a total of 365, another example of their astronomical mastery.

07 Day: Ek Balam - Valladolid

The Ek Balam & Valladolid excursion provides insight into a very different style of Mayan architecture unique to Ek Balam. The construction and decoration of Ek Balam's buildings was completed with stucco and limestone mortar, not the stone carvings found at Chichen Itza, Coba or the Tulum Ruins. In addition to the highly decorated and detailed structures, Ek Balam has unique features within its city limits. Sacbes, which are man-made roads, lead into the center of the city that is protected by an unusual wall. The Mayas took the four cardinal points into great consideration when building their city giving Ek Balam a deeper spiritual significance.

Exploring the colonial city of Valladolid

Our next and final stop is in the main square or "zocalo" in the colonial city of Valladolid, an up and coming artist city that has a long history in the Yucatan state. With so much to see and experience, we provide all of our guests with free time to explore and shop. Local family merchants have hand-made crafts and art typical to Mexico and the region. You will be hard pressed to find some of these items in the Riviera Maya so take a peek. The main square is the location of the oldest church in the area, the Cathedral of San Gervacio, and the Spanish colonial style found throughout the zocalo, very different from beach towns.
